BENEFITS OF ELECTRONIC BILLING

One of the greatest benefits of electronic billing is that less information is required for processing. Less information means less room for error. The data element that are not required on electronic claims include:

- claim sort indicator
- patient's date of birth
- patient's address
- patient's sex
- signature of provider
- provider's name and address

Other benefits of billing electronically include:

- free software
- improved cash flow
- lower detail denial rate
- flexible submission methods
- claim entry controlled by provider
- online edits

To request more information on electronic claims submission contact the Electronic Media Claims (EMC) Department at the address located in Section 4 of the handbook, or fill out the Paperless Claims Request form located at the back of this handbook.
